

USAREUR License Replacement

Did you lose your license? Is your license damaged or otherwise unreadable?

If your license is **older** than 3 years you must:

- Complete an application (at your local DTTS office)
- Pay the \$30 fee

If your license is mutilated and **less** than 3 years old you can do one of two things:

1. Apply for replacement at no cost and receive a license with the original expiration date.
2. Apply for a replacement, take an eye test and pay the \$30 fee to receive a new license that is valid for 5 years.

If you lost your license you always need to pay the \$30 fee.

NOTE: you must possess a valid ID card and a Stateside driver's license.
